

## REMARKS

This Amendment is submitted in response to the Office Action dated March 30, 2007, having a shortened statutory period set to expire June 30, 2007. Proposed amendments to the Claims include **amending** Claims 1, 9 and 12-14. Upon entry of the proposed amendments, Claims 1-14 will now be pending.

### Non-Statutory Double Patenting Rejections

On pages 2-3 of the present Office Action, the Examiner has rejected Claims 1-3, 6-11 and 12-14 as being obvious over co-pending application No. 10/698,543. Enclosed is a Terminal Disclaimer, which should overcome this rejection.

### Rejections under 35 U.S.C. § 101

On page 3 of the present Office Action, Claims 12-14 are rejected for claiming a “computer usable media” that is not limited to tangible media. The present amendment adds this limitation; thus the rejection should be overcome.

### Rejections under 35 U.S.C. § 112

On page 4 of the present Office Action, Claims 1-5 are rejected for lack of antecedent basis for the term “the location memory.” This term was a typographical error, which has been replaced with the Examiner-suggested term “the location identity.”

### CONCLUSION
